

Parapsychology 2

Practical Methods for Awakening the Kundalini,
Attaining Clairvoyance, and Developing a
Photographic Memory

Parapsychology 2

Agama is pleased to introduce a new workshop by a longtime colleague of Swami Vivekananda, Eugen Birgoanu, the inventor of one style of brain machine and an expert in parapsychological studies and radionics.

Eugen will bring his expertise to Koh Phangan in an exclusive workshop exploring the following subjects:

- Phosphenes, their definition and importance. Perceiving the lateral phosphene, amplifying the “luminous chaos,” studying co-phosphenes, and preparation in view of awakening clairvoyance.
- Awakening the internal light (maintaining phosphenes). Sustained meditation, the transformation of luminous energy into mental energy, and increasing the powers of concentration, for use in various directions.
- Using phosphenes in view of awakening memory; the energetic foundation for spiritual development.
- Mental and physical preparation toward awakening the Kundalini.
- Creed systems and the correct way

of raising the issue in order to achieve results. Holism

- Characteristics of the Kundalini – correlation with the movements to imprint on phosphenes.
- First stages of awakening the Kundalini – generating a mental vortex.
- Device to trigger awakening of the Kundalini, awakening procedures, forms of perception, response time.
- Applications in various processes – dreams, meditation, everyday life.

Parapsychology 2 will be held at Agama Yoga, Bovy Resort, Haad Chao Phao, Koh Phangan, Thailand.

Dates: 5 – 9 May, 2008
