

Parapsychology

explore the powers of the mind

Swami Vivekananda Saraswati leads this extraordinary new workshop exploring the vast powers of the mind. Learn to expand your consciousness beyond preconceived limitations, and delve into the realms of astral projection and clairvoyance.

Parapsychology 1

Parapsychology is typically recognised as being the scientific study of paranormal or extraordinary phenomena. This primary level workshop, the first offering in a series, will examine this field generally, and will explore two main topics in depth: clairvoyance (seeing beyond the normal) and astral projection (travel in the astral body).

This workshop will provide a study of what is known and understood scientifically about the power of the mind and subtle energies of nature. We will also outline, rationally and non-technically, the best methods known in Yoga for practising and training in the exceptional fields of clairvoyance and astral projection.

Parapsychology 1 is open only to students who have completed the First Month Intensive Course, except by special approval.

Parapsychology 1 will be held at:
